

## Okta Browser Plugin - MAC

The following information will guide you through adding the browser plugin for Okta on a Mac. This is needed by some of the apps used by Okta. If you use more than one browser, you will need to add the plugin for each browser. If you have any questions, please reach out to <u>help@fullbloom.org</u>.

https://catapult.okta.com/

## Safari:

- 1. Log into Okta
- 2. If the plugin is needed in Safari, you will see a message in Okta
